**TRAVEL CHANNEL'S GHOST ADVENTURES CONTINUES THE HUNT FOR  
SPIRITS AT HAUNTED LOCATIONS**

*- Armed with sophisticated technology, the team unveils paranormal activity  
at haunted locations during the popular series -*

(Chevy Chase, MD) – Paranormal investigators Zak Bagans, Nick Groff, and Aaron Goodwin continue their quest to document supernatural activity at haunted locations both domestic and international when **GHOST ADVENTURES returns with new episodes June 5<sup>th</sup> at 9PM on Travel Channel**. Making themselves vulnerable to unearthly possession, attempting to exorcise demons, and using extreme taunting techniques to dare the suspected ghosts are all in store **every Friday through July 24<sup>th</sup>**.

During their investigations, the crew finds out about the area, interviews locals about hauntings, and gets up close and personal with the spirits reportedly inhabiting these locations. Armed with night vision cameras, digital recording equipment and unique provoking techniques, the crew readies themselves for an overnight investigation. While being locked down from dusk til dawn the Ghost Adventures crew investigates each locations paranormal activity. There are no cameramen or production crews to record the event – just the three-man investigative team of Bagans, Groff and Goodwin. At the end of each episode, an independent, third party team of paranormal specialists conducts a scientific analysis to decipher and analyze the evidence caught on camera. The professionals range from Electronic Voice Phenomena (EVP) experts and those who use a scientific monitoring approach to Catholic Bishops.

The June 5<sup>th</sup> premiere features an investigation at Preston Castle where Zak, Nick and Aaron explore a condemned building in Ione, California. The castle is a former reformatory that housed angry juvenile offenders and abandoned children. It is the sight of an unsolved murder, countless instances of

corporal punishment and the scene of many tragic deaths due to ravaging epidemics of Tuberculosis and Yellow Fever. The crew has their hands full as they investigate the reportedly aggressive ghosts that are trapped within its confines.

During the season, the Ghost Adventures crew investigates the Castillo De San Marcos in St. Augustine, FL; La Purisima Mission in Lompoc, CA; the Magnolia Lane Plantation in Natchitoches, LA; Birdcage Theater in Tombstone, AZ; Eastern State Penitentiary in Philadelphia, PA; Moon River Brewery in Savannah, GA and Ancient Ram Inn in Wales.
